

SCANME NOW FOR INSURANCE

Better Evidence. Faster Decisions.

ScanMeNow replaces traditional photo documentation with **rapid, high-fidelity 3D evidence**. In just minutes, we create a tamper-proof digital replica of any vehicle or personal item — capturing **true geometry, surface condition, and alignment** with absolute clarity.

This means no more inconsistent photos, no more site visits, no more guesswork.

Claims teams can **evaluate damage remotely**, with confidence, accuracy, and certainty from the very first review.

The result? **Faster resolutions**. Fewer disputes. Happier customers. A claims process that finally works — **for everyone**.

Quick & Reliable

Complete capture in seconds, with 3D models ready in minutes

Maximum Visual Quality

Captures ultra-fine detail and complex surfaces in 3D with AI

Lightweight Data

~5 MB files for easy storage, transfer, and instant viewing

Clarity at First Capture

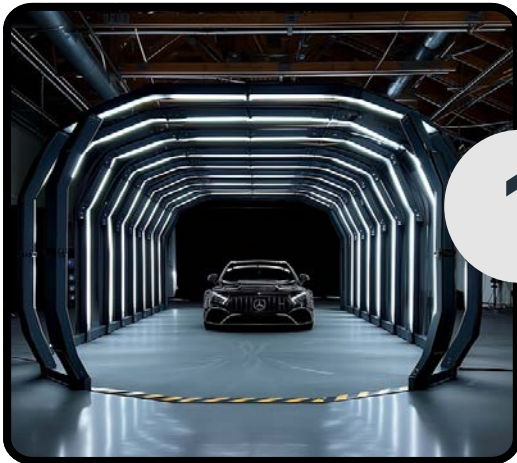

Capture everything once. Settle with confidence. No return visits.

Effortless Operation

Single trigger. Full automation. Zero hassle.

Clarity ends disputes.
Consistency accelerates decisions.

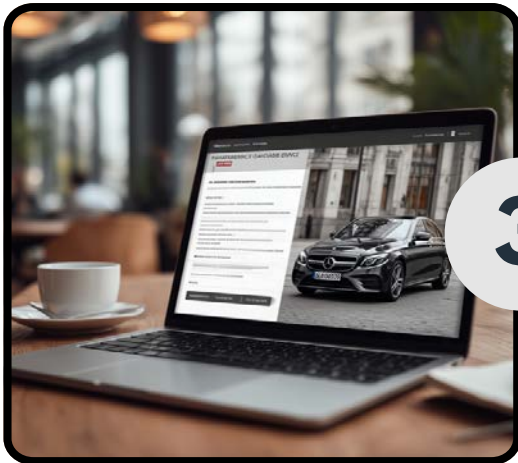

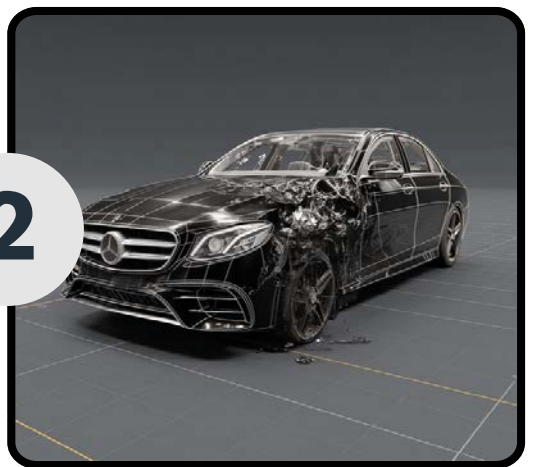

Capture

Rapid 3D capture using 100+ synchronized cameras — preserving true condition from every angle.

Evaluate

Claims teams access full-context 3D evidence from anywhere. Reducing back-and-forth and getting valuations right the first time.

Settle

Clear, consistent documentation builds trust and accelerates approvals — cutting dispute cycles and restoring confidence in the process.

This is not just better documentation:
it's a fundamental shift toward faster, clearer, and more confident claim outcomes.
