

SCANMENOW FOR EVENTS

Your brand in a new Dimension

ScanMeNow captures high-fidelity 3D models of every guest in seconds, preserving every detail with exceptional realism. This transforms live events into lasting digital experiences that showcase your brand in a way guests won't forget — creating immersive memories built to be shared.

Each scan is presented within a bespoke branded scene, built specifically for your event — from 3D brand environments to reimagined backdrops that embody your story from every angle. Rendered with realism, every reflection, smile, and surface detail looks as real as the moment itself, on any device.

> Fast Capture
