

SCANME NOW FOR

MUSEUMS

Reimagining the Museum Souvenir

Many museums already offer **souvenir photography** — often green screen setups with limited realism and short-lived impact.

ScanMeNow transforms that concept into an **immersive AI-powered digital experience**.

In seconds, visitors are captured in **lifelike 3D** and placed inside **themed exhibition environments** — from prehistoric landscapes to historic reconstructions — creating **interactive, shareable keepsakes** that feel personal, premium, and truly unique.

The result?

More memorable visits.
Greater social reach.
More value per visitor.

Immersive Visitor Engagement

Turn passive viewing into active participation.

Premium Revenue Upgrade

A higher-value alternative to traditional photo experiences.

Curated Digital Environments

Custom digital spaces designed around your exhibitions.

Installation Ready

Designed for long-term, low-maintenance integration.

Effortless Operation

Minimal staff input with automated processing and delivery.

SCANMENOW

Make Every Visitor Part of the Exhibition

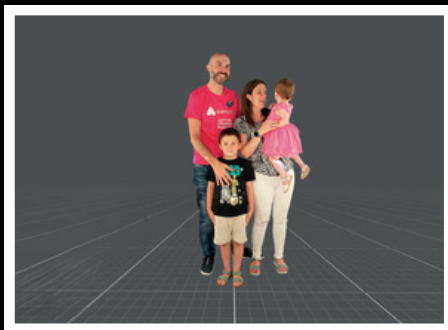

CAPTURE

Visitors step into the installation for a seamless 3D capture.

CREATE

AI transforms the capture into a hyper-real 3D replica.

SHARE

Integrated into your exhibitions, creating a premium digital souvenir visitors are proud to share.
